

FRIENDS OF THE FEATHER: IGNITING POSSIBILITIES TOGETHER.

OUR MISSION

The mission of the Wilson Area Partners in Education Foundation is to ensure the highest level of educational innovation supporting students, faculty and staff with community involvement in a partnership of lifetime learning.

We focus on providing educational opportunities that fall outside of the school district's budget. We support innovative projects, programs and experiences which would otherwise not be available to Wilson Area students. With 50% of families qualifying as economically disadvantaged, we strive to empower each and every child to dream big through an enriched educational journey.

WHAT IS FRIENDS OF THE FEATHER?

Friends of the Feather (FOTF) is a fundraising program designed to help bring the Foundation's annual key initiatives to life. Offered to both businesses and individuals, FOTF is critical because it allows the flexibility to direct funds where they are needed most. In exchange for support, FOTF members receive benefits congruent with their donation level.

2023 KEY INITIATIVES

FRIENDS OF THE FEATHER CONTRIBUTIONS WILL HELP FUND THE FOLLOWING:

S.T.E.A.M. LEARNING

Hands-on experiences create lasting memories and bolster a love of learning. Our K - 4th Grade STEAM (Science, Technology, Engineering, the Arts & Math) learning initiative will provide increased opportunities for individualized exploration and creative expression while students are at a critical developmental stage.

ENRICHMENT PROGRAMMING

Building on lessons learned within the classroom, we'll help provide learning opportunities and experiences beyond the walls of our school buildings.

HEALTH & WELLNESS

From physical fitness to mental health, we're committed to holistically supporting the wellbeing of staff and students across the entire district.

INNOVATION GRANTS

Our Innovation Grant Program fuels projects and programs that fall outside of departmental or district budgets. Allocated funds enable educators to bring their creative ideas to life.

TECHNOLOGICAL ADVANCEMENTS

The Foundation is dedicated to ensuring students and staff are utilizing the most current technologies available and exploring innovative ways to transfer knowledge. This year, we are working to launch a virtual reality education pilot program.

SCHOLARSHIPS

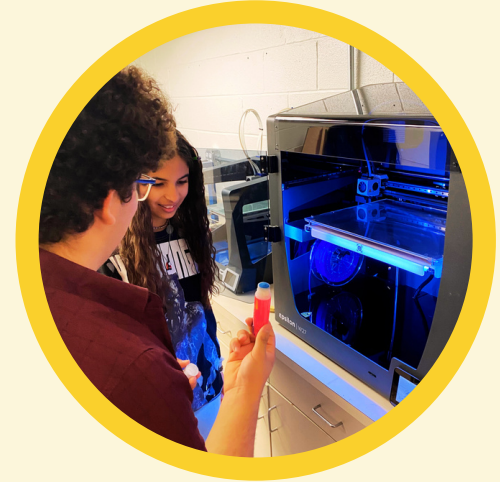

Scholarships are awarded annually based on applicant involvement in school activities, demonstrated community service, and academic achievement. Each scholarship is a one-time award of \$1,000.00, made payable to a post-secondary institution or trade school.

IGNITING POSSIBILITIES TOGETHER.
